

YOU SPENT A LOT OF MONEY ON INPUTS. DID YOU SEE WHERE IT WENT?

AgOtter leveraged with AgHippo, a real-time tracking service, gives you the insight needed to identify application discrepancies... down to one-second intervals.

Available with any existing AgOtter. Simply log in to the app and you'll be tracking your AgOtter data.

No more over or under applications. Just a consistent rate, regardless of field conditions. AgOtter gives you a uniform spray job across the field. AgHippo gives you full transparency.

Spray. Control. Verify.

LABOR COSTS DRAGGING YOU DOWN? FUEL COSTS GOING UP?

Managing efficiencies can be the easiest way to control these costs.
But inefficiencies aren't always easy to identify.

Use AgHippo to leverage AgOtter, and help you better understand what is actually happening in the field.

How long were they spraying? How much transport time between fields and loads? How long to fill the tank? All this can be answered and seen *live* with AgHippo!

Spray. Control. Verify.
